### Smart Schools Investment Plan - Revised - First - Amendment 1

| SSI |  |  |  |
|-----|--|--|--|
|     |  |  |  |

### Institution ID

800000039267

1. Please enter the name of the person to contact regarding this submission.

Joseph Reilly

1a. Please enter their phone number for follow up questions.

607-654-3858

1b. Please enter their e-mail address for follow up contact.

Reilly.j.n@gmail.com

2. Please indicate below whether this is the first submission, a new or supplemental submission or an amended submission of an approved Smart Schools Investment Plan.

Amended submission

3. All New York State public school districts are required to complete and submit a District Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner's Regulations. Districts that include investments in high-speed broadband or wireless connectivity and/or learning technology equipment or facilities as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

By checking this box, you certify that the school district has an approved District Instructional Technology Plan survey on file with the New York State Education Department.

- ☑ District Educational Technology Plan Submitted to SED and Approved
- 4. Pursuant to the requirements of the Smart Schools Bond Act, the planning process must include consultation with parents, teachers, students, community members, other stakeholders and any nonpublic schools located in the district.

By checking the boxes below, you are certifying that you have engaged with those required stakeholders.

- ☑ Parents
- ☑ Teachers
- ☑ Community members
- ☐ The district was unable to meet with each group of stakeholders due to an emergency need as a result of the COVID-19 crisis.
- 5. Did your district contain nonpublic schools in 2014-15?
  - ✓ Yes
  - ☐ Yes, but they have all since closed, moved out of district or are declining use of SSBA funds
  - □ No
- Certify that the following required steps have taken place by checking the boxes below:
  - ☑ The district developed and the school board approved a preliminary Smart Schools Investment Plan.
  - ☑ The preliminary plan was posted on the district website for at least 30 days. The district included an address to which any written comments on the plan should be sent.
  - ☑ The school board conducted a hearing that enabled stakeholders to respond to the preliminary plan. This hearing may have occured as part of a normal Board meeting, but adequate notice of the event must have been provided through local media and the district website for at least two weeks prior to the meeting.
  - ☐ The school board was unable to conduct a hearing that enabled stakeholders to respond to the preliminary plan due to an emergency need as a result of the COVID-19 crisis.
  - ☑ The district prepared a final plan for school board approval and such plan has been approved by the school board.
  - ☑ The final proposed plan that has been submitted has been posted on the district's website.

08/03/2020 10:08 AM Page 1 of 16

### Smart Schools Investment Plan - Revised - First - Amendment 1

SSIP Overview

6a. Please upload the proposed Smart Schools Investment Plan (SSIP) that was posted on the district's website, along with any supporting materials. Note that this should be different than your recently submitted Educational Technology Survey. The Final SSIP, as approved by the School Board, should also be posted on the website and remain there during the course of the projects contained therein.

Status Date: 07/30/2020 03:03 PM - Approved

Smart Schools Investment Plan Phase I.pdf

6b. Enter the webpage address where the final Smart Schools Investment Plan is posted. The Plan should remain posted for the life of the included projects.

https://drive.google.com/file/d/0By8CmhfvByUsalAwWXhOd0tPWjg/view

7. Please enter an estimate of the total number of students and staff that will benefit from this Smart Schools Investment Plan based on the cumulative projects submitted to date.

8,600

- 8. An LEA/School District may partner with one or more other LEA/School Districts to form a consortium to pool Smart Schools Bond Act funds for a project that meets all other Smart School Bond Act requirements. Each school district participating in the consortium will need to file an approved Smart Schools Investment Plan for the project and submit a signed Memorandum of Understanding that sets forth the details of the consortium including the roles of each respective district.
  - ☐ The district plans to participate in a consortium to partner with other school district(s) to implement a Smart Schools project.
- Please enter the name and 6-digit SED Code for each LEA/School District participating in the Consortium.

| Partner LEA/District | SED BEDS Code |
|----------------------|---------------|
| (No Response)        | (No Response) |

10. Please upload a signed Memorandum of Understanding with all of the participating Consortium partners.

(No Response)

11. Your district's Smart Schools Bond Act Allocation is:

\$5,294,721

12. Final 2014-15 BEDS Enrollment to calculate Nonpublic Sharing Requirement

|            | Public Enrollment | Nonpublic Enrollment | Total Enrollment | Nonpublic Percentage |
|------------|-------------------|----------------------|------------------|----------------------|
| Enrollment | 7,847             | 311                  | 8,158.00         | 3.81                 |

13. This table compares each category budget total, as entered in that category's page, to the total expenditures listed in the category's expenditure table. Any discrepancies between the two must be resolved before submission.

|                                       | Sub-Allocations | Expenditure Totals | Difference |
|---------------------------------------|-----------------|--------------------|------------|
| School Connectivity                   | -628,901.08     | -628,901.08        | 0.00       |
| Connectivity Projects for Communities | 0.00            | 0.00               | 0.00       |
| Classroom Technology                  | 604,296.00      | 604,296.00         | 0.00       |
| Pre-Kindergarten Classrooms           | 0.00            | 0.00               | 0.00       |
| Replace Transportable Classrooms      | 0.00            | 0.00               | 0.00       |
| High-Tech Security Features           | 0.00            | 0.00               | 0.00       |
| Nonpublic Loan                        | 23,950.05       | 23,950.05          | 0.00       |
| Totals:                               |                 |                    |            |

## Smart Schools Investment Plan - Revised - First - Amendment 1

SSIP Overview

| Sub-Allocations | Expenditure Totals | Difference |
|-----------------|--------------------|------------|
| -655            | -655               | 0          |

08/03/2020 10:08 AM Page 3 of 16

School Connectivity

- In order for students and faculty to receive the maximum benefit from the technology made available under the 1. Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that:
  - sufficient infrastructure that meets the Federal Communications Commission's 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or

Status Date: 07/30/2020 03:03 PM - Approved

- is a planned use of a portion of Smart Schools Bond Act funds, or
- is under development through another funding source.

Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

- 1. Specifically codified in a service contract with a provider, and
- 2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

(No Response)

- If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.
  - ☐ By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.
- 2. Connectivity Speed Calculator (Required). If the district currently meets the required speed, enter "Currently Met" in the last box: Expected Date When Required Speed Will be Met.

|                  | Number of<br>Students | Required Speed in Mbps | Mbps          | to be Attained | Expected Date When Required Speed Will be Met |
|------------------|-----------------------|------------------------|---------------|----------------|---|
| Calculated Speed | (No Response)         | 0.00                   | (No Response) | (No Response)  | (No Response)                                 |

Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless 3. connectivity projects in school buildings.

In our original plan, the district committed to upgrading the capacity of the network infrastructure to support our one-to-one project. During the implementation, the district applied for Federal Erate funds and reduced their Smart School requirement significantly. Rockland and Seattle Washington were the original "hot spots" for this pandemic. Their student now need access for remote learning tools. We are proposing moving some of the surplus funds from Classroom Connectivity to Classroom Devices.

Describe the linkage between the district's District Instructional Technology Plan and how the proposed projects 4. will improve teaching and learning. (There should be a link between your response to this question and your responses to Question 1 in Section IV - NYSED Initiatives Alignment: "Explain how the district use of instructional technology will serve as a part of a comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students."

Your answer should also align with your answers to the questions in Section II - Strategic Technology Planning and the associated Action Steps in Section III - Action Plan.)

(No Response)

08/03/2020 10:08 AM Page 4 of 16

School Connectivity

If the district wishes to have students and staff access the Internet from wireless devices within the school 5. building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Status Date: 07/30/2020 03:03 PM - Approved

Please describe how you have quantified this demand and how you plan to meet this demand.

(No Response)

6. Smart Schools plans with any expenditures in the School Connectivity category require a project number from the Office of Facilities Planning. Districts must submit an SSBA LOI and receive project numbers prior to submitting the SSIP. As indicated on the LOI, some projects may be eligible for a streamlined review and will not require a building permit.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

Project Number 50-02-01-06-7-999-004

Certain high-tech security and connectivity infrastructure projects may be eligible for an expedited review process 7. as determined by the Office of Facilities Planning.

Was your project deemed eligible for streamlined review?

8. Include the name and license number of the architect or engineer of record.

| Name                             | License Number |
|----------------------------------|----------------|
| Michael Shilale Architects L.L.P | 19732          |

9. Public Expenditures - Loanable (Counts toward the nonpublic loan calculation)

| Select the allowable expenditure type.      | PUBLIC Items to be | Quantity         | Cost Per Item    | Total Cost |
|---|--------------------|------------------|------------------|------------|
| Repeat to add another item under each type. | Purchased          |                  |                  |            |
| (No Response)                               | (No Response)      | (No<br>Response) | (No<br>Response) | 0.00       |
|   |                    | 0                | 0.00             | 0          |

10. Public Expenditures - Non-Loanable (Does not count toward nonpublic loan calculation)

Community Connectivity (Broadband and Wireless)

Describe how you intend to use Smart Schools Bond Act funds for high-speed broadband and/or wireless 1. connectivity projects in the community.

(No Response)

Please describe how the proposed project(s) will promote student achievement and increase student and/or staff 2. access to the Internet in a manner that enhances student learning and/or instruction outside of the school day and/or school building.

Status Date: 07/30/2020 03:03 PM - Approved

(No Response)

- Community connectivity projects must comply with all the necessary local building codes and regulations 3. (building and related permits are not required prior to plan submission).
  - ☐ I certify that we will comply with all the necessary local building codes and regulations.
- Please describe the physical location of the proposed investment. 4.

(No Response)

5. Please provide the initial list of partners participating in the Community Connectivity Broadband Project, along with their Federal Tax Identification (Employer Identification) number.

| Project Partners | Federal ID #  |
|------------------|---------------|
| (No Response)    | (No Response) |

Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category. 6.

| Select the allowable expenditure type. Repeat to add another item under each type. | Item to be purchased | Quantity      | Cost per Item | Total Cost |
|--|----------------------|---------------|---------------|------------|
| (No Response)  | (No Response)        | (No Response) | (No Response) | 0.00       |

## Smart Schools Investment Plan - Revised - First - Amendment 1

Classroom Learning Technology

In order for students and faculty to receive the maximum benefit from the technology made available under the Smart Schools Bond Act, their school buildings must possess sufficient connectivity infrastructure to ensure that devices can be used during the school day. Smart Schools Investment Plans must demonstrate that sufficient infrastructure that meets the Federal Communications Commission's 100 Mbps per 1,000 students standard currently exists in the buildings where new devices will be deployed, or is a planned use of a portion of Smart Schools Bond Act funds, or is under development through another funding source.

Smart Schools Bond Act funds used for technology infrastructure or classroom technology investments must increase the number of school buildings that meet or exceed the minimum speed standard of 100 Mbps per 1,000 students and staff within 12 months. This standard may be met on either a contracted 24/7 firm service or a "burstable" capability. If the standard is met under the burstable criteria, it must be:

Status Date: 07/30/2020 03:03 PM - Approved

- 1. Specifically codified in a service contract with a provider, and
- 2. Guaranteed to be available to all students and devices as needed, particularly during periods of high demand, such as computer-based testing (CBT) periods.

Please describe how your district already meets or is planning to meet this standard within 12 months of plan submission.

Northeast Rockland Central Schools (Haverstraw-Stony Point) subscribes to Gigabit broadband services that exceed this requirement through the Regional Information Center.

- 1a. If a district believes that it will be impossible to meet this standard within 12 months, it may apply for a waiver of this requirement, as described on the Smart Schools website. The waiver must be filed and approved by SED prior to submitting this survey.
  - □ By checking this box, you are certifying that the school district has an approved waiver of this requirement on file with the New York State Education Department.
- Connectivity Speed Calculator (Required). If the district currently meets the required speed, enter "Currently Met" in the last box: Expected Date When Required Speed Will be Met.

|                  | Number of Students | Required Speed in Mbps |      |                  | Expected Date When Required |
|------------------|--------------------|------------------------|------|------------------|-----------------------------|
|                  |                    | •                      | ·    | Within 12 Months | Speed Will be Met           |
| Calculated Speed | 7,956              | 795.60                 | 1000 | 1000             | Currently met               |

3. If the district wishes to have students and staff access the Internet from wireless devices within the school building, or in close proximity to it, it must first ensure that it has a robust Wi-Fi network in place that has sufficient bandwidth to meet user demand.

Please describe how you have quantified this demand and how you plan to meet this demand.

Northeast Rockland made providing saturation wireless service to all students as a priority of the original submission of this plan. Included in that plan was a total ovehaul of the entire district infrastructure. This included core and edge switching with 10 gig capacity and over 600 new wireless access points. The district used Federal Erate funds for 70% of the cost of the project which left a balance of over \$600,000 in the network connectivity component of the original plan.

The district meets with the planning team from their architect, the regional information center, and the instructional team on an ongoing basis. They review the academic plans for the spaces in all of the buildings and the capacity of the network infrastructure for those spaces. The district has the reserves in the Smart School plan and federal Erate funds to make any adjustments that are required.

4. All New York State public school districts are required to complete and submit an Instructional Technology Plan survey to the New York State Education Department in compliance with Section 753 of the Education Law and per Part 100.12 of the Commissioner's Regulations.

Districts that include educational technology purchases as part of their Smart Schools Investment Plan must have a submitted and approved Instructional Technology Plan survey on file with the New York State Education Department.

☑ By checking this box, you are certifying that the school district has an approved Instructional Technology Plan survey on file with the New York State Education Department.

08/03/2020 10:08 AM Page 8 of 16

Classroom Learning Technology

5. Describe the devices you intend to purchase and their compatibility with existing or planned platforms or systems. Specifically address the adequacy of each facility's electrical, HVAC and other infrastructure necessary to install and support the operation of the planned technology.

Northeast Rockland Central Schools has maintained the electical infrastructure of their buildings through a series of capital projects. The district wishes to purchase a number of laptops and chromebooks to expand their 1:1 capacity. This expansion is critical due to the continued demands of remote learning and independent learning in the district. The only requirement of these devices is a 110 outlet to recharge the batteries. All rooms in all of the facilities have more than adequate capacity for these devices.

Status Date: 07/30/2020 03:03 PM - Approved

- 6. Describe how the proposed technology purchases will:
  - > enhance differentiated instruction;
  - > expand student learning inside and outside the classroom;
  - > benefit students with disabilities and English language learners; and
  - > contribute to the reduction of other learning gaps that have been identified within the district.

The expectation is that districts will place a priority on addressing the needs of students who struggle to succeed in a rigorous curriculum. Responses in this section should specifically address this concern and align with the district's Instructional Technology Plan (in particular Question 2 of E. Curriculum and Instruction: "Does the district's instructional technology plan address the needs of students with disabilities to ensure equitable access to instruction, materials and assessments?" and Question 3 of the same section: "Does the district's instructional technology plan address the provision of assistive technology specifically for students with disabilities to ensure access to and participation in the general curriculum?")

In addition, describe how the district ensures equitable access to instruction, materials and assessments and participation in the general curriculum for both SWD and English Language Learners/Multilingual Learners (ELL/MLL) students.

Northeast Rockland has made a priority of one-to-one learning for several years. A one-to-one offers huge advantages for the students to utilize and benefit from technology.

These devices enhance differentiated instruction by providing the teacher and the students to adjust time available to the student's needs instrad of a an arbitrary 45 minute bell schedule. Students who need additional time to acquire a skill or knowledge can reach out to the instructor at their time and not just during a designated time period. Students who grasp a concept quickly can move to another area that may require more attention or expand a concept using the access these devices provide.

Students with disabilities can reach out directly to the instructor if necessary or when an aide is present. Many of these students are self concious about asking for extra help during the normal class time but benefit from one to one access at other opportunities.

For students who are English Language Learners there is a built in challenge at traditional schools. Few of these students have the luxuray of a translator being available every day all day. They often lose the spontonaeity of learning when they have to wait until later in the day or even another day for access to a translator. Using the translation tools in the Google Classroom program an ELL student can immediately translate from English to native language and from native language to English. No lost learning time.

In the past only wealthy students have had access to these tools. With the expansion of one-to-one devices at Northeast Rockland all students can benefit and grow rather than just a few advantaged students.

Finally, the Corona pandemic has put many students in a position of depending on remote learning. Northeast Rockland wants desperately to support the learning efforts of their students and staff in this crisis. The access to these devices is critical.

7. Where appropriate, describe how the proposed technology purchases will enhance ongoing communication with parents and other stakeholders and help the district facilitate technology-based regional partnerships, including distance learning and other efforts.

Very often people don't recognize the benefit of a one-to-one device for stake holders and ongoing communication with parents. The device might not, but the changes in the learning environment that these offer is critical. During this pandemic many students and teachers have used these devices for remote learning. Parents can now take advantage of video conferencing immediately with their student's instructor using the capacity built into these devices and the teacher's expanded comfort with the technology. Parents, teachers and specialists can arrange for virtual conferences for expanded support for students with disabilities.

Teachers can walk a parent through a skill during "virtual office hours" to support a struggling learner. Teachers and parents can discuss alternative ways of support a student that is struggling emotionally with the isolation.

Classroom Learning Technology

Describe the district's plan to provide professional development to ensure that administrators, teachers and staff 8. can employ the technology purchased to enhance instruction successfully.

Note: This response should be aligned and expanded upon in accordance with your district's response to Question 1 of F. Professional Development of your Instructional Technology Plan: "Please provide a summary of professional development offered to teachers and staff, for the time period covered by this plan, to support technology to enhance teaching and learning. Please include topics, audience and method of delivery within your summary."

Status Date: 07/30/2020 03:03 PM - Approved

- 1. The district offers a Professional Development programs throughout the school year. These sessions occurr after school and staff can receive CTLE and In-service credit for taking the course. Topics cover technology platforms we use in our school district.
- 2. The district uses a Professional Development Day each year. These are opportunities to enhance staff skills using technology. We also allow for teachers to share their best practices as apart of this day. Topics covered G-suite, integrating technology into class activities, and enhancing overall school community and collaboration.
- 3. Teachers are encouraged to go to conferences which promote the use of technology and the teacher shares the information with staff afterwards. Example conferences are NYSCATE, TLI offered through the LHRIC.
- 4. There are STEM faciliators that help teachers develop technology skills in Peer to Peer sessions upon request in the school buildings.
- 5. Teachers are encourage to receive Google Certifications for Educator Level 1 and 2.
- Districts must contact one of the SUNY/CUNY teacher preparation programs listed on the document on the left side 9. of the page that supplies the largest number of the district's new teachers to request advice on innovative uses and best practices at the intersection of pedagogy and educational technology.
  - 🗵 By checking this box, you certify that you have contacted the SUNY/CUNY teacher preparation program that supplies the largest number of your new teachers to request advice on these issues.

Dr. Jason Lane

- To ensure the sustainability of technology purchases made with Smart Schools funds, districts must demonstrate 10. a long-term plan to maintain and replace technology purchases supported by Smart Schools Bond Act funds. This sustainability plan shall demonstrate a district's capacity to support recurring costs of use that are ineligible for Smart Schools Bond Act funding such as device maintenance, technical support, Internet and wireless fees, maintenance of hotspots, staff professional development, building maintenance and the replacement of incidental items. Further, such a sustainability plan shall include a long-term plan for the replacement of purchased devices and equipment at the end of their useful life with other funding sources.
  - ☑ By checking this box, you certify that the district has a sustainability plan as described above.
- Districts must ensure that devices purchased with Smart Schools Bond funds will be distributed, prepared for use, 11. maintained and supported appropriately. Districts must maintain detailed device inventories in accordance with generally accepted accounting principles.
  - 🗷 By checking this box, you certify that the district has a distribution and inventory management plan and system in place.
- 12. Please detail the type, quantity, per unit cost and total cost of the eligible items under each sub-category.

Pre-Kindergarten Classrooms

Provide information regarding how and where the district is currently serving pre-kindergarten students and justify 1. the need for additional space with enrollment projections over 3 years.

Status Date: 07/30/2020 03:03 PM - Approved

(No Response)

- Describe the district's plan to construct, enhance or modernize education facilities to accommodate pre-2. kindergarten programs. Such plans must include:
  - Specific descriptions of what the district intends to do to each space;
  - An affirmation that new pre-kindergarten classrooms will contain a minimum of 900 square feet per classroom;
  - The number of classrooms involved;
  - The approximate construction costs per classroom; and
  - Confirmation that the space is district-owned or has a long-term lease that exceeds the probable useful life of the improvements.

(No Response)

3. Smart Schools Bond Act funds may only be used for capital construction costs. Describe the type and amount of additional funds that will be required to support ineligible ongoing costs (e.g. instruction, supplies) associated with any additional pre-kindergarten classrooms that the district plans to add.

(No Response)

All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public 4. school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.

Please indicate on a separate row each project number given to you by the Office of Facilities Planning.

### Smart Schools Investment Plan - Revised - First - Amendment 1

Non-Public Schools

Describe your plan to utilize SSBA funds to purchase devices and loan to the nonpublic schools within your
district. Please specify what devices have been requested by the nonpublic schools. If the nonpublic schools have
not finalized requests, the district should provide the date nonpublic schools will submit the request by.

This amendment has been drafted during the shutdown of both Northeast Rockland and St Gregory Barbarigo School. We have reached out to our Non-Public partner and are waiting for their response. We have set aside the funds for their requests.

Status Date: 07/30/2020 03:03 PM - Approved

- 2. A final Smart Schools Investment Plan cannot be approved until school authorities have adopted regulations specifying the date by which requests from nonpublic schools for the purchase and loan of Smart Schools Bond Act classroom technology must be received by the district.
  - 🗵 By checking this box, you certify that you have such a plan and associated regulations in place that have been made public.
  - 2a. Please enter the date each year nonpublic schools must request loanable items from the school district. This date cannot be earlier than June 1 of the previous school year.

June 30

3. Final 2014-15 BEDS Enrollment to calculate Nonpublic Sharing Requirement (no changes allowed.)

|            | Public Enrollment | Nonpublic Enrollment | Total Enrollment | Nonpublic Percentage |
|------------|-------------------|----------------------|------------------|----------------------|
| Enrollment | 7,847             | 311                  | 8,158.00         | 3.81                 |
