1. Describe how you intend to use Smart Schools Bond Act funds to install high-tech security features in school buildings and on school campuses.

This amendment submission is necessary as professional consultation services were necessary for completion of the phone/security platform that was finished over this last year. The professional fees that we're hoping to add to this SSIP were critical for completion of the SSIP.

2. All plans and specifications for the erection, repair, enlargement or remodeling of school buildings in any public school district in the State must be reviewed and approved by the Commissioner. Districts that plan capital projects using their Smart Schools Bond Act funds will undergo a Preliminary Review Process by the Office of Facilities Planning.
