EZReports
Afterschool Management Software

EZReports is a powerful and comprehensive web-based software for managing grant-funded afterschool programs. EZReports meets the data collection and reporting requirements of the Federal 21st Century Community Learning Centers (21st CCLC) programs. EZReports is being used by several State DOEs to manage their 21st CCLC program statewide. The NYSED has also chosen EZReports as data collection and reporting software for the State of New York. Please visit ezreports.org for more information.
